

Our takeout packaging is an easy, convenient way to safely transport a meal from a foodservice location to a chosen destination. Select from food pails, takeout boxes, and barns made from bleached paperboard (also called solid bleached sulfate or SBS). Food pails feature a grease-resistant lining for added protection against oily foods. Takeout packaging works well for a variety of hot and cold foods, including fried chicken, burgers, baked goods, and side dishes.

Leak-resistant food pails are secured with hook closure. Auto-bottom, tuck-top cartons feature a tuck lid with a “lock”. Fast-top styles snap open quickly for filling and close by locking the top into the box ends. The snack and dinner-sized tuck-top and fast-top cartons are perfect for two-piece to four-piece individual meals or multipiece chicken tenders. Handled boxes are ideal for larger-portion takeout orders that require carton strength.

Circularity

- Fiber used meets the Sustainable Forestry Initiative® (SFI®) Certified Sourcing standards, ensuring that it comes from sustainably managed forests
