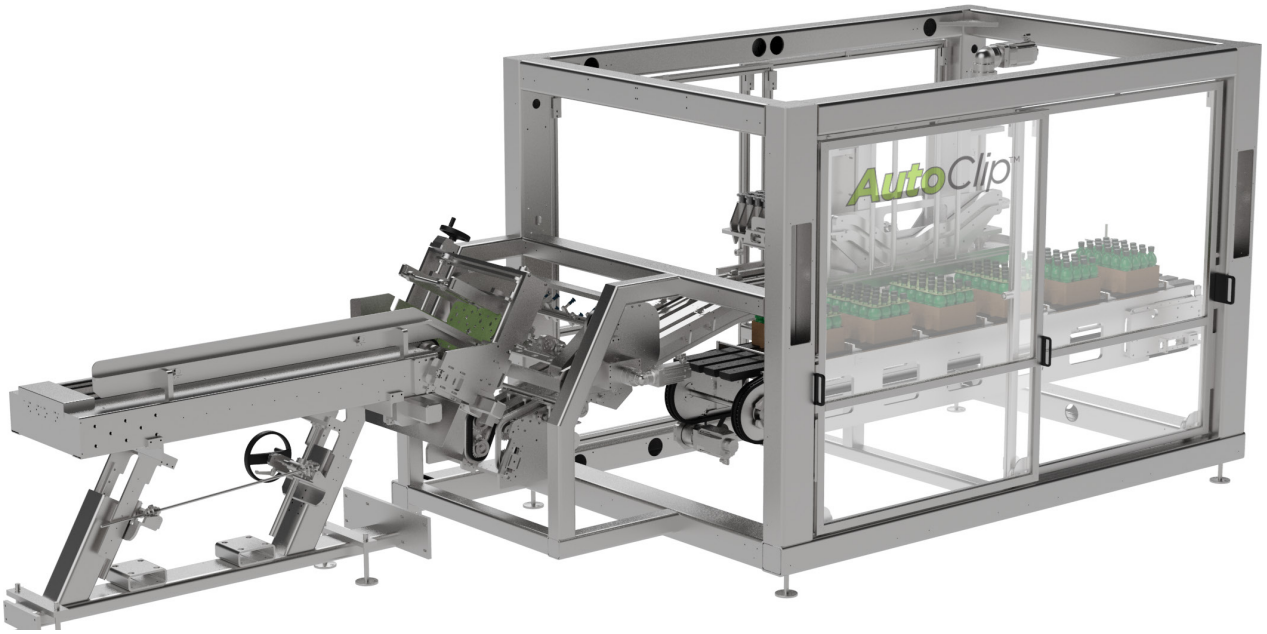
AutoClip™ SC125



EnviroClip™ applicator for cans and bottles in trays through SplitClip™

Graphic Packaging INTERNATIONAL

GPI10132025

AutoClip™ SC125

A continuous-motion machine for applying the EnviroClip™ carton to cans and bottles already in trays or plastic shells. The 4x6 clip can be separated into the final format or left connected for pallet stability. Product runs wide side leading, back-to-back through the machine for lowest linear speed and fewest transfers. This equipment can also be combined with the QuikFlex™ Tray Packer module for tray packing upstream.

MACHINE FEATURES

Standard

- Joined EnviroClip carton blank
- Low level magazine with up to 40 minute capacity
- Rotary feeder
- Phased servo transport and clipping unit
- Small footprint. 160” long x 85” wide
- Simple line integration
- Allows other non-clipped product to pass through

Options

- Nick breaking module
- Extended Magazine (1 hour capacity)

Frame & Guards

- Heavy-duty welded tubular painted steel frame with corrosion resistance coatings and materials
- Full height, clear guard doors providing easy walk-in access to the machine functions for changeover and maintenance

Specifications

Standard machine elevation

43.5” +/- 2” (1100mm +/- 50mm)

Machine Weight

Approx 10,000lbs
