

EconoPaxx™ cartons deliver dependable performance for hot or cold foods—ideal for salads, sides, entrées, and desserts. The seamless web-corner design helps prevent leaks, while a low-density polyethylene (LDPE) lining adds extra protection against grease and moisture. Pre-stacked with an open top for fast loading, the four flaps fold and lock securely for quick assembly and spill-free transport.

Circularity

- Fiber used meets the Sustainable Forestry Initiative® (SFI®) Certified Sourcing standards, ensuring that it comes from sustainably managed forests
- This product is recyclable only in the few communities that have appropriate recycling facilities
- Free of intentionally added PFAS

Functionality

- Made in the USA
- Ships nested for efficient transport and storage, requiring the least possible counter space back of house
- Holds a variety of meal types to minimize the number of packaging SKUs required for service

Convenience

- Ensure hands and clothing stay free of grease thanks to the PE barrier lining
- Locking mechanism allows it to stay securely closed during travel
- Leak resistant, one-piece design
- Top flaps retain heat and vent steam
